Riscella Enterprises Limited

Dear valued customers and partners,

On behalf of the board and every member of our team, it is my pleasure to welcome you to the Riscella Enterprises Limited product catalogue. We are a Ugandan enterprise headquartered on Sir Apollo Kaggwa Road in Wandegeya, Kampala, specialising in the compliance-verified sourcing, cold-chain distribution and technical deployment of high-grade laboratory chemicals and analytical reagents.

Riscella was founded by a board of chemical scientists and laboratory technologists. We set out to solve the problems that so often stall factories and research laboratories across the region: fragmented supply chains, inconsistent lot purities and long procurement lead times. By holding essential reagents in Kampala, we protect your quality control, quality assurance and production laboratories from volatile international shipping delays and costly downtime.

We work directly with respected global names, including Merck/Sigma-Aldrich, Loba Chemie, Pallav, Actylis/Finar, Reagecon and Fisher Scientific, so that every product you order is traceable, consistent and ready for audit. Each batch is accompanied by a Certificate of Analysis and a Material Safety Data Sheet, and our trained biochemists and industrial chemists are always on hand to advise on assay compatibility and alternative sourcing.

Thank you for the trust you place in us. We look forward to supporting your work, from the daily batch test to the research that moves our region forward.

Yours sincerely,

Managing Director
Riscella Enterprises Limited
